Home Fire Safety Visits

What is a Home Fire Safety Visit?

We will visit your home to deliver tailored fire safety advice and discuss any risks we find. We will also talk about how you should react or respond in an emergency.

We do require your consent to visit and following the visit, we can make onward referrals for support for you if needed.

If you require them, we can fit CO alarms and smoke alarms for you*

* If your property is rented, or a House of Multiple Occupation, we cannot fit or replace alarms. This is the responsibility of your landlord; however, we can still visit and deliver fire safety advice, contacting your landlord if needed.

Do you have concerns around any of the following:

- Lack of or no working smoke alarms
- Mobility / sensory impairment which may affect your ability to escape in a fire (including dementia)
- Smoking inside the home especially if immobile
- Previous fires or near misses
- Electrical safety - i.e. overloaded sockets or exposed wires
- Issues of hoarding or clutter

What advice can we deliver:

- Smoke alarms and CO alarms
- Escape plan
- Bedtime routine
- Closing of doors
- Cooking and kitchen safety
- Electrical safety
- Heating methods
- Candles/Naked Flames
- Smoking (including Vaping)
- Hoarding and Clutter
- Emollient creams
- Home oxygen

You can request a home fire safety visit in 3 ways:

1. Online Referral Form – www.northantsfire.gov.uk
2. Email - safetycheck@northantsfire.gov.uk
3. Telephone - 01604 797000

You can also complete your own fire safety check online.
